

THE ROLE OF WEB STANDARDS

aim of the website: instruct about what web standards, which ones exist, who ensures that they are respected

target audience: users who are interested in the subject, no matter their background experience in web development

understand Plan: ~~I)~~ ~~What~~ What are web standards? (1)

agreement ~~II)~~ How are new standards set (rules)? (5)

HTML/code ~~III)~~ give examples of specific standards \leftarrow HTML, CSS, ... (6)

~~IV)~~ list all main ~~standards~~ organisations (3)

\nwarrow ~~V)~~ evolution of web standards (history) (2)

~~VI)~~ ~~Website = aim + target audience + plan~~

pic: W3C ~~VII)~~ The W3C (detailed) (4)

$$4032 \times 3024$$

$$2286 \times x$$

$$x = \frac{3024 \times 2286}{4032} = 1714,5$$
